

I would like to thank BARKA representative Włodzimierz Placewicz for supporting and guiding my son through a very difficult period of the summer this year when we realized that he is addicted to heroin. When the fact of heroine dependency of our son was revealed we were devastated and we have no idea what to do and where to turn for help. We ask Włodzimierz for help and advice. He spent many hours talking to our son; he also found a proper recovery house for him. Włodzimierz also gave me and my wife very valuable advice of how to deal with our son's addiction. He was always available every time we requested his help.
